| Reproducibility:                            | Every time  | Root cause:       | 编码问题                                           |
| Test Type:                                  | ST          |                   |                                                |
| Description                                 |             |                   |                                                |
| 【前提条件】                                      |             |                   |                                                |
| 1、设备已开机                                     |             |                   |                                                |
| 【测试步骤】（以网易云音乐为例）                            |             |                   |                                                |
| 1. 长按网易云图标                                  |             |                   |                                                |
| 2、点击 ” 听歌识曲”                                |             |                   |                                                |
| 【预期结果】                                      |             |                   |                                                |
| 2、出现提示并可以按照提示的方法添加微件or直接进入听歌识曲页面            |             |                   |                                                |
| 【实际结果】                                      |             |                   |                                                |
| 2、出现 ” 轻触并按住该快捷方式可移动该快捷方式 “ 的提示，但是按照该方法无法添加 |             |                   |                                                |

History

■ Current conclusion

问题已解决，原生在弹出框的item右侧存在button，可按住button将widget拖拽到桌面。

当前需求取消了拖拽功能，所以已经和需求确认，取消此toast提示。
